

## Tigriyna Dictionaries and Literature

Modern Dictionaries Written in Reformed Tigriyna and Tigrinnian Literature

*The «Edition Eyob GB» publishes books of the Eritrean language researcher and author Eyob Ghebreziabhier Bein.*

*His extensive Tigriyna dictionaries are the result of a research during more than 25 years. The author aimed at the creation of a kind of an archive of his language. This is necessary also because many of the people did not receive a good education in language due to the long war and/or their flight. And the Eritrean dictatorship did not take sufficient care of the language.*

*According to the author, about 30% of the entries are words which are used rarely nowadays. Hence, these dictionaries are not only useful for speakers and students of Tigriyna but also for linguists and philologists.*

Eyob Ghebreziabhier Bein
